SUMMARY

Hi, I'm Zach Jones, a Frontend Engineer with 3 years of experience building SaaS applications with technologies like React, TypeScript, Redux, Storybook, Cypress, d3.js, and more.

My experience both as an engineer and entrepreneur showcases my ability to adapt, take initiative, communicate effectively, and learn whatever it is I need to take a project from 0 to 1.

WORK EXPERIENCE

Read.ai   **Dec 2021 – Mar 2023**
Software Engineer, Front End   Santa Clara, CA
- Developed a Google Chrome extension using React & TypeScript that integrates directly into Google Calendar and is used by over 1000 daily active users
- Completely overhauled the Read.ai marketing website using Webflow, resulting in a 300% increase in the app signup conversion rate
- Refreshed the entire user settings page of the Read.ai web app, adding new settings and integration tests, reducing incoming support tickets by 60%
- Added over 30 UI components to the core frontend component library using Storybook, Cypress, & Material UI, significantly speeding up the development process

SwingSlidePlay.com   **Nov 2018 – Jan 2020**
Founder   Campbell, CA
- Founded an e-commerce business that sold playground equipment & accessories using Shopify, generating $50,000 in revenue
- Implemented heat-mapping and A/B testing solutions to the e-commerce website, resulting in a 4x increase in product conversion rates

Pliancy   **Apr 2017 – Nov 2018**
IT Engineer   Redwood City, CA
- Supported the IT needs for over 20 venture capital and private equity firms, ensuring seamless business operations
- Implemented cloud-managed networks, security camera systems, and conference rooms to enhance business efficiency
